

Closed-End

Horizontal Baler

Closed-End Features

- ▼ Wide variety of feed openings available to accommodate your specific material size
- ▼ Compatible with conveyor, chute, cart dumper, or hand-feed applications
- ▼ Standard photocell feature enables automatic cycling
- ▼ Standard touchscreen controls, hydraulic door latch, and rotary bale-length gauge facilitate easy operation

The Worldwide Leader in Quality Recycling and Compaction Equipment

Marathon® Equipment is known throughout the world as one of the leading manufacturers of quality on-site recycling products. The **Marathon** brand has been the industry standard for quality and innovation for more than 50 years, and includes auto-tie balers, manual-tie balers, two-ram balers, MRF systems, conveyors, vertical balers, cart dumpers, and a wide array of options for virtually any application.

Solutions Group®

A DOVER COMPANY

Closed-End Horizontal Baler

Overview

Marathon® Closed-End Horizontal Balers are mid-sized balers that process a wide variety of material and can produce up to 20 tons of OCC in a typical day's shift.

Key Features

- ▼ Rotary bale-length gauge activates the bale made light automatically, with no flag pole to engage or disengage
- ▼ A photoelectric cell facilitates automatic cycling
- ▼ Heavy-duty, spring-loaded retainer locks
- ▼ Reversible and replaceable ram-shear blade and serrated body-shear blade
- ▼ Conveyor, chute, or hand-feed hopper
- ▼ Heavy-duty power pack with 20 or 30 HP TEFC motor
- ▼ Center position valve, 10-micron return-line filter, and 100 mesh suction-line strainer
- ▼ Audio/visual start-up alarm

Closed-End Horizontal Baler

Features and Dimensions

Marathon® Closed-End Balers feature a hydraulic door latch.

The touchscreen enables full automatic and manual control with one touch. Screens may be customized, password protected, and are designed with alarm, diagnostic, and help screens.

High-efficiency power unit and electrical disconnect are standard on all Marathon® Closed-End Horizontal Balers.
